We are now applying to side bar wagons a simple attachment which produces A PEREOFLY EASY, LEVEL RIDING WAGON, entirely free from rattle or screak," and giving increased strength and safety, without adding to the weight.

With this improvement we are also using (after a thorough trial during the past three years) the parallel or straight arm axie, running with greater precision and less friction than any axie ever used for speeding.

Gentlemen interested in driving matters are invited to examine these improvements at our Lectory, Broadway and Forty seventh street, or at our warefroom, Eith avenue and Fourteenth street.
